

Quality Policy

TRÜTZSCHLER
S P I N N I N G

Mission

A family business with more than a century of tradition, with an important legacy in the textile industry and committed to providing state-of-the-art products that meet our customers' needs.

Vision

To be a leader in the Brazilian market as a manufacturer of textile machinery in the spinning preparation segment in terms of products and services, with a sustainable cost/benefit ratio that allows us to continue to evolve technologically.

Quality Policy

- **Maintaining an efficient management system, capable of evaluating its results in order to make our business viable;**
- **Continuously improve the quality management system, providing products and services with the same quality standards as the Trützschler group;**
- **To work ethically, with transparency in our actions, respecting environmental legislation and enabling the training and well-being of our employees.**

Eduardo Valiera Mascarenhas
Diretor
