

# Your mill at a glance

My Mill offers you a transparent view of your entire spinning mill.

Generate quick wins, save time in routines, optimize processes and cut costs with little effort.

**Mobile view**  
Always up to date, even on the move.

## Generation of quick wins as of day one

### Shopfloor visual

Check instant state of your machines, track production values and see error messages.

### Shift Data

Time savings in daily routines – through predefined reports for quality and production monitoring.

### Statistics

Selection of individual and pre-defined charts enables fast and qualified data-based reporting and decisions, e.g. internal benchmarking of shift and machine productivity.

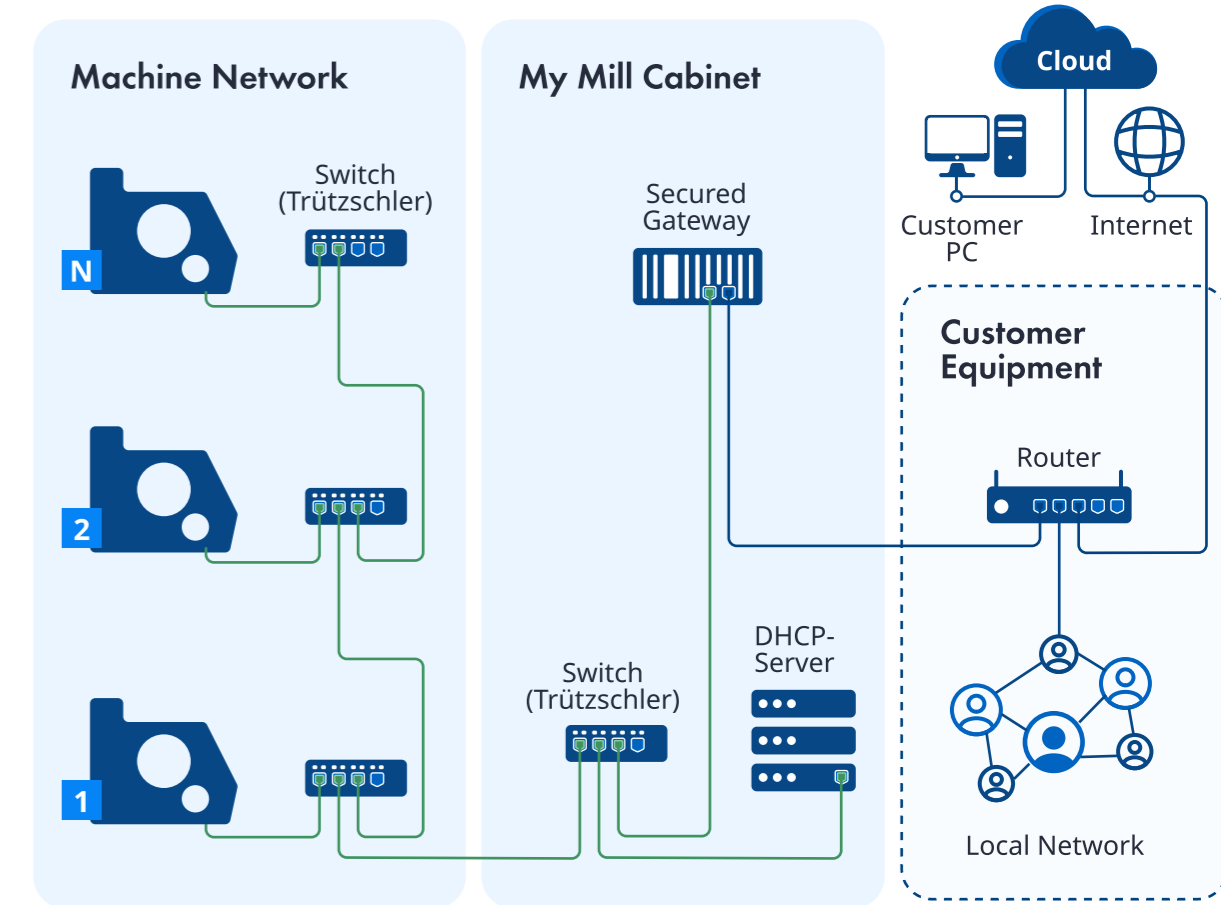

### Notifications

Background monitoring of status and limits – gives security and frees up focus for things that really need attention.

### Third-party integration

Integrate My Mill with third-party applications and access production data directly from those applications.

## Data flow in My Mill

Cloud based = safe and secure access through My Identity authentication

This network structure achieves a strong separation between the machine network (green) and the private network of the customer (blue), providing robust security.

# Local services included in *My Mill*\*

## **Digital Start-Up**

Guided onboarding to My Mill by our local service team - generate quick wins as of day one.

## **Digital Audit**

Analysis and advice based on your mill's statistics – improve your mill's performance.

\* Purchase of My Mill includes the Digital Start-Up and 3x Digital Audits
